Whether You Say So or Not

We take it for granted that Regal customers want correct and latest style, first of all-and we keep all of our 114 stores busy on that basis: not one single carriedover style can be offered you in any of them. The Regal business moves too fast for that.

Shoe styles change oftener than twice a year. New designs appear every little while and secure the approval of certain groups of people whose ideas of correct costume establish the new styles.

And as often as a new model does secure acceptance, you can have that model fitted in quarter-size Regals, anywhere, all over the country. It won't be a make-shift imitation either, but an exact duplicate in fo. n and material and make-up. You will find it fit to wear wherever that particular combination of leather is appropriate.
